

Dear Sir/ Madam

13/01/2012

I am writing to inform you that the Blitz Young People's Alcohol Project is currently being reviewed in relation to impact, learning outcomes and effectiveness. This means that it will not be running in the Secondary Schools across Cornwall for this year. The intention is to use the learning from the review to inform future delivery and enhance Blitz's current programme of informative education.

To undertake this evaluation we would like to invite the PSHE leads within your school, or any other staff that may have been involved in the Blitz Project, to attend an evaluation meeting, to be held at the Health Promotion Service, Kernow Building, Wilson Way, Pool, Redruth, TR15 3HQ. The meeting is on Friday 24 February 2012 at 10.30am.

Your presence would be greatly appreciated as we value your feedback about the Blitz Project and how we can continue improving information and education to young people in the County in regards to reducing their Risk Taking behaviour.

Youth Intervention Officers will continue to keep their promise to Schools to deliver drugs and alcohol awareness in Schools, but not under the old Blitz project. They will be involved within delivery of the new Blitz Project when that is implemented.

In addition, support and resources continue to be available from the Health Promotion Service and the YZUP Young Person's Substance Misuse Service in relation to early intervention around drugs and alcohol in schools.

If you are unable to attend this meeting, please could you email micheala.dudley@ciospct.cornwall.nhs.uk by the Friday 10 February 2012?

Yours sincerely

Micheala Dudley
Young peoples Alcohol Promotion Worker
